

Ventanas

Your Community in Costa Rica

www.ventanasplayagrande.com

Best neighborhood for your well-being

Beach Life Style • Recreation Areas • Great Surf • Best Sunsets • Security 24/7

Las Ventanas is a private neighborhood 150 hectares with ocean view, straddling El Cerro Almendro between two of Costa Rica's most famous beaches: Playa Grande and Playa Conchal

With four private schools and nearly 30 miles of beaches accessible in under 30 minutes, Las Ventanas is surrounded by natural landscapes, wildlife conservation areas and environmentally protected lands.

ARCHITECTURE

The architectural style was chosen as an adaptation to Guanacaste's ecosystem and native climate in order to function and blend in with the natural landscape – a dry tropical forest. As one of the last in the world, our mission is to preserve the nature through the annual cycle our lush green season and sunny dry season.

Signature features of our custom homes include open spaces, large sliding glass doors, and overhangs that provide natural light, energy efficiency through cross ventilation construction and covered al fresco verandas, rain or shine.
